

New!

Quantum Flex® Trimmer

Flexibility that's a game-changer.

- Fits **any** Bettcher motor installation
- Lighter and faster for improved cutting efficiency
- **Plus** ... more durable than ever!

Whizard® Innovation from Bettcher

Attachable to Any Motor

There's no need to replace your existing motors in order to get the powerful performance benefits of the new Quantum Flex® trimmer. That's because it attaches securely to any UN-84, Series II UltraDrive® or Whizard® Quantum® motor!

Increased Blade Speed is Only the Beginning

Our new blade/housing interface delivers a smoother operation as well as greater durability. You get better cutting efficiency along with measurable performance improvements across all of your trimming applications.

Quantum Flex tools are up to **15% lighter weight** than our original Quantum models. Plus, compared to other trimmers, they give you the best of all worlds: **better durability at a more affordable price!**

See It in Action!

Visit bettcher.com/QF to see video clips of the Quantum Flex trimmer in action. Or call **800-321-8763** to learn more about how this versatile new tool improves trimming efficiency while keeping equipment expenditures under control!
