

Important Announcement: Legacy Batter Breeding Solutions

We would like to inform you of several important developments concerning the batter breeder (a.k.a. coating system) products and accessories from Bettcher Industries.

As a world leader in point of use, food service coating solutions, Bettcher is continually innovating to provide products and services for commercial kitchens and restaurants. Over the past +30 years it has been a product line that leading establishments around the globe have counted on to provide efficiency and value to their operations. This evolution has culminated to our current product offering which includes the inline **ACS**, **ACS-RP** (for round product coating), and vertically-stacked **Optimax BB-1 & BB-2 models**. These product solutions will continue to lead the way in point of use coating systems in the various market segments they serve.

Many of the previous versions of coating systems have become solutions that are now several generations old. In order to maintain our focus on delivering today's best possible coating solutions to our customers, *service and support of our legacy batter breeder and coating solutions will be discontinued immediately.*

The following models from our legacy line will be considered obsolete, effective immediately:

	115V	230V	Canadian
SBB-1	500250		501660
SBB-2	500400		500400
ABB	502057	100061	502058
OPTIMAX – XJR	500962		
OPTIMAX – 2	501627		
OPTIMAX – C1	501741		501809
OPTIMAX – C2	501800		501813
OPTIMAX – YRI	501750	501940/ 501950/ 501776/ 501818	
OPTIMAX – K1	502000		
OPTIMAX – KC1	502036		

**All other part numbers not included here, but part of these product lines will also be obsolete.*

Our plan will be to make in-stock inventory available to our customers who still utilize these legacy products in their operations through the end of 2019. After this date, or with “no on-hand inventory” items, we will direct all interested buyers to a third-party provider or help them upgrade to a current coating system product.

By taking these actions, Bettcher Industries will be able to continue our focus on top-notch product offerings and on providing the high levels of service expected of your industry partners. We look forward to our continued relationship.
