

# Cleaning Instructions

**Clean after every use and prior to assembly**

**WARNING!**

Sharp blades may cause cut injury!  
For proper protection of hands, a protective glove should be worn when handling this equipment.

## 1. Rinse: *Immediately* after use

## 2. Disassemble: Be sure all components are completely disassembled.

## 3. Soak: Use 2oz. of Extra Cleaner per gallon of warm water. Soak for 30 minutes.

Case #184331  
4 Gallons and Pump  
Gallon #184332

Trimmer Cleaning Kit  
#184334

## 4. Clean: Each component thoroughly by brushing every surface.

Pay extra attention to the pinion and blade teeth to be sure all debris is removed.

## 5. Rinse and Dry: Be sure all parts are completely dry. *Using compressed air is highly recommended.*

Parts must be completely dry.
