

*Performance with a punch!*

# Quantum Skinner®

Bettcher Industries introduces the all-new Quantum Skinner®, an innovative electrically powered tool that delivers **substantial energy savings**, requires less maintenance and improves performance.

*In addition to offering dramatic energy savings, the Quantum Skinner delivers more power and a quieter operation thanks to the high-speed Quantum Motor™ and driveline.*

## Dramatic Savings

Pneumatic tools are expensive to operate and costly to maintain. Most air-powered motors have vanes, gear boxes and bearings, too – components that require constant attention. When you consider everything, it's no surprise that the electrically powered Quantum Skinner® will save you big dollars by comparison.

## Faster, Easier, Quieter Operation

The Quantum Skinner is engineered to remove skin and fat at a controlled depth, eliminating knife gouges while removing hog hair roots and skin patches easily and effectively.

The skinner connects to the high-speed Quantum Motor™ and driveline, thereby delivering more power and a quieter operation. Our skinner is lighter and easier to handle than competing models, too.

## Increase Your Productivity

The Quantum Skinner is a labor-saving tool that improves productivity along with increasing product yields. One tool and one operator are capable of keeping up with today's rapid production requirements.

## See It in Action

Visit [bettcher.com/QS](http://bettcher.com/QS) to see video clips of the Quantum Skinner in action. Or call **800-321-8763** to talk with our yield specialists and learn more about how this new tool will please your processing line workers even as it reduces your operating costs.

World Headquarters: Birmingham, OH USA • Offices in North America, Europe, Brazil, China

## Energy Savings that Really Add Up

If you're wondering how much you could save by switching to electrically powered skinners, we're here to help.

We'll conduct a comparative energy usage analysis based on your own specific operating conditions and show you the results.

Contact our yield specialists at **800-321-8763** for assistance.

## Quantum Skinner® delivers ...

- Consistent cutting power
- Quiet operation
- Reduced weight
- Less maintenance

*Powerful performance – yet so easy to use!*
