

# UN-84 Motor Limit Switch

## *New Equipment Design and Repair Kits*

The current manufacturer of the motor limit switch (#124915) for the UN-84 motor is no longer producing this switch. After considerable testing, a new switch kit has been specified for all new UN-84's built as well as repair kits. Included in the repair kit is a motor switch and mounting plate, cable connector, cam and roll pin, two stops, and three wire ties.

Motor Limit Switch	Part #
115V Repair Kit	163036
230V Repair Kit	163039
42 V Repair Kit	163052
