

Real Results

The world's most productive and powerful trimmer system delivers dramatic improvements in bottom-line performance.

► How effective is the new Quantum™ Trimmer System?

If you're talking about increased meat yields and a rapid ROI, you're talking **dramatically better performance.**

A large, U.S. Mid-Continent beef processing plant tested new Quantum™ trimmers on its neck bone trimming line. In real-time test conditions operating side-by-side with its existing trimmers, the results were eye-popping:

Average Meat Yield per Hour

	Existing Trimmers	Quantum Trimmers	% Increase
Test #1	81 lbs.	111 lbs.	+37%
Test #2	113 lbs.	133 lbs.	+20%
Test #3	110 lbs.	139 lbs.	+26%

- **Projected annual increased meat recovery: \$1.9 million.**
- **Projected ROI: New equipment investment recouped in just 10 days.**

For this plant, the decision to switch to the Quantum Trimmer System was a no-brainer:

- **Significantly better yields**
- **More worker productivity**
- **Quick ROI**
- **Lowest long-term cost of operation**
- **Improved bottom-line performance**

► We can improve your meat yields and profits, too!

Let's explore how we can help you achieve similarly strong results in your meat processing operations. Contact us today for an in-plant demonstration and custom financial impact analysis.

We've improved everything about trimming ...

The Quantum® Trimmer System:

- Makes even the toughest cuts easy
- Delivers better productivity and meat yields
- Reduces parts, maintenance and training
- Delivers the lowest long-term cost of operation

That's Quantum – brought to you by the world's trimming leader and based on years of research and rigorous field testing.
